

MSCS Committee Meeting Minutes

Friday, February 24, 2023

- Max McGee and his colleagues from Hazard, Young, Attea, and Associates shared the job posting draft with the advisory committee, which focused on finding an educator with teaching experience, integrity, community engagement, and cultural competency
- The advisory committee would like to see the firm bring in candidates who are committed to teaching and learning with a focus on mental health and safety. While leadership experience is critical, they do not wish for candidates to be disqualified if they do not have direct superintendent experience
- Community engagement is key moving forward, so the advisory committee is looking forward to another round of input
